

PRODUCT INFORMATION

Parts & Service

DW-S – Double-wall casing - Standard

Advantages:

- High quality and reliability
- High durability
- Utmost precision in manufacturing
- Individual application consulting
- Low-maintenance

Applications:

- Suitable for all soil layers

Features

Casing wall

- Double-walled
- Additional reinforcement
- Continuously smooth drill string > No catching of drilling tool

Spiral reinforcement

- Reinforcing bars between inner and outer casing
- Increased stability
- Higher dimensional stability in use with casing oscillators

Thread and conical rings

- Wear-resistant steel
- Easy to replace

Modular system

- Coordination to required drilling depth possible

High manufacturing quality

- Optimal circularity
- Optimal parallel construction
- Low wear and torque requirement

Material quality

- High material standard
- Use of cast and forged parts depending on requirements

Impermeable

- Thanks to optional sealing on the casing connectors
- Thanks to optional sealing on the casing screws

Feather keys

- For optimal positioning
- Easy orientation of casing screw holes
- Not for transmission of force
