

SB / SB-2 – Auger

Advantages:

- Designed for top drilling performance
- Particularly durable
- Innovative further development
- Individual application consulting
- Ease of maintenance

Applications:

- Soft to stiff cohesive soils
- Loose to medium-dense bedded non-cohesive soils
- SB-2 preferred for uncased deep boreholes or for large diameters

Features

Gusset plate

- Lead-in chamfer for casing
- Strut
- Integrated hoisting eyebolt for lifting the tool

Auger

- Optimized raising for undisrupted extraction
- Pass-through for largest possible material size

Cutting edge

- Made of high-strength quality steel
- Resistant to wear

Pilot

- Bauer spiral pilot
- Optimal centering of drilling tool

Bauer flat teeth

- Top quality and material quality
- Excellent drilling progress
- Long service life

Wear protection

- Specifically for highly stressed points
- Easy to replace

Material quality

- High standard of material
- Use of cast and forged parts depending on requirements

Kelly box

- Bauer Kelly box 200 mm square
- Optimized for the toughest applications

Standard dimensions

Ø (mm)	Length (mm)
520	1,700, 2,250
650	1,700, 2,250
780	1,700, 2,250
900	1,700, 2,250
1,060	1,700, 2,250
1,180	1,700, 2,250
1,350	1,700, 2,250
1,850	1,700, 2,250
2,000	1,700, 2,250
2,500	1,700, 2,250

Other lengths and diameters on request.
